

Hikoi of a Poisoned Nation – Mission Statement

This is a statement from Emille Leaf and Alan Gurden @The Hikoi of a Poisoned Nation.

To all Hapū, New Zealanders, we take this opportunity to firmly and unequivocally state our philosophy and commitment to all citizens of Aotearoa.

We acknowledge everyone's right to coexist in this beautiful Paradise of which we are all Kaitiaki/ Guardians.

As caretakers of the land we have a moral obligation to our future generations ngā tamariki mokopuna hoki, to preserve and protect this Paradise and its taonga, "kaitiakitanga". It is the duty of all of us to stand and protect what we have left to do this we must take it from the hands of psychopathic, ecocidal maniacs and morons.

So we have Sparked the "Hikoi of a Poisoned Nation" Metaphorically speaking, we have set alight the fuse of the 1080 time bomb that the government has allowed to be built over the last 30 years. With your help we will set it off in the grounds of parliament.

This is an opportunity for one nation to stand together against the corruption, cruelty and inhumane actions perpetrated against them and the Mauri (lifeforce / essence) of Te Wao (the sacred forests) Ngā kai (wild foods plant and animal) Rongā (medicines) wai Māori (fresh water) kai moana (seafood) Te Aitanga a Punga (the insect world) Ngā tangata (the people) by our successive Governments.

These actions must be 100% peaceful, lest we become those that we oppose! Our partnership acknowledges the Declaration of Independence of 1835 which ensured self-determination for all of us.

We wish to take back what has been stolen from our children and give it back to them. We have no hidden agendas, no ulterior motives. We seek no fame or fortune, and we will not be corrupted.

Our only allegiance is to our Whānau, and our only interest is to end this chemical warfare that is waged against us.

Our mission statement is this -

We seek to -

- (1) Immediately ban the use of 1080 all together in New Zealand.
- (2) Immediately make the aerial application of any pesticide in the future, illegal.
- (3) We will be asking the Prime Minister, Jacinda Ardern, to immediately use her special Powers under Section 11 of the terrorism suppression act 2002 to immediately declare the organisations in this country responsible for these atrocities, as terrorist entities.

We will also ask her to seize all assets of these terrorists companies, freeze all funds and finally make the police do their job, arresting and charging ALL that have played a part in these acts of terrorism and chemical warfare.

So wake up fellow New Zealanders, it is time to rise from the trenches on the front lines of this attack on Humanity and mother nature.

We will march united from the real world to the halls of Decadence. We were to have an audience with the politicians, to give them an education on the real truth about 1080 use in New Zealand, as per an agreement I had with Jacinda that if we did a march and made it to Parliament she would ensure we had that audience.

However, owing to her recent approval of over 80 million dollars to be used for even more poisoning of our land we see the urgency in educating these politicians before we arrive at Parliament .

So, to this end I guess they will have to get their education off our Facebook page just like the rest of the public - not that they don't already know the whole truth. We will put them on notice, give them our ultimatum and await their decision with the rest of the world watching!

Now an empty gun is no good to anybody, so you the people of New Zealand need to be the hypothetical pellets in the shells of our double barreled hikoi, that take down these terrorists.

The POWER IS with the PEOPLE - Let's take charge of our responsibilities!
NOT ONE MORE ACRE... POISONED

HIKOI DETAILS AS FOLLOWS

It is our joint vision that this hikoī represent the small communities, tributary streams and rivers of New Zealand that have been poisoned. Just like a small Creek turns into a stream and a stream turns into a river, we would like the people of New Zealand to walk with us and add to the flow.

We invite all New Zealanders to join us in any manner they can. We will be posting events in most major towns on our route as we go. We hope to stay about a week ahead of ourselves with posted plans so people have time to meet up with us.

The Graf Boys are fully on board and plan to travel back and forth between our two hikoī they will be holding a series of public presentations at meetings along our routes - these will be posted.

As we will be organising many events/protests along the way, we feel that this hikoī should be as organic as possible, otherwise known as - going with the flow.

There will be no date set for our arrival at Parliament until later on - we estimate between 5 and 6 weeks.

The start date is confirmed as the 15th of June in Bluff, at dawn, and Cape Reinga at dawn on the 14th of June 2018. We were going to start simultaneously, but to allow the Graf Brothers to give a presentation and do some filming, the dates are split. We are both hoping to have our trip blessed by local Iwi more details of departure will be put on this page later under events.

We realise that feelings run deep on this issue and it effects many people from all corners of New Zealand - some quite remote that would like to attend - especially at Parliament. We would like that no man, woman or child that wishes to be there, should be left behind, so everybody should do what they can to make sure this happens.

We will be putting a bank account number on our site shortly - throw a few dollars into it if you can, it will all help. We will need ferry tickets, petrol vouchers and lots of other logistical expenses along the way.

Rules of the hikoi

There's only one rule - we absolutely insist on 100% PEACEFUL ACTION PLEASE !

Please bring your children as this will be an amazing opportunity to educate them on processes to effect change and stand up for their rights!

PLEASE make sure those you are responsible for are safe on the road at all times. You can use any mode of transport you like - jump on a horse, jump on a tractor, flog the company car, jump on a bike, run, walk, jog, swim if you have to - just make sure you are there to stand up for your children and their future.

Please don't drink the water along the way, it's probably poisoned, bring your own! The walking element of this hikoi will be fronted by a safety vehicle at all times. You never know, we might even see the police there to protect us for once. Even if it is only an escort.

KIA KAHA!
BE STRONG!

KIA MAIA!
BE BRAVE!

KIA MANAWANUI!
BE STEADFAST!

No reira, tēnā Koutou!
tēnā Koutou kia ora tātou katoa!
